CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

The institute has formed an Academic atmosphere. Within the Academic atmosphere some committees are included such as Academic Council, Examination Cell, Library Committee, Research and Development Cell, Finance Committee, Library Committee, IQAC and other committees which are directly and indirectly related with the academic activities. Initially the academic council call a semester wise meeting where every Head of the departments are present. The agendas which are discussed in the meeting are as follows Different strategies to implement the course curriculum in the upcoming semester are discussed. Academic calendar which is issued by the affiliating University (Maulana Abul Kalam Azad University of Technology) are distributed to each and every HODs. Probable time of internal examination, practical examination and total number of available upcoming class hour are discussed. In the meeting different ways of innovative teaching processes are also discussed. Also different kind of innovative teaching techniques such as presentations, assignments, mini-projects, discussions, workshops, seminars, industrial visits, computer education are also discussed. Each head of the department is also told to distribute the different job to every staff of their department. After that each head of the department calls a meeting to execute the decisions which were taken. Firstly the head of the department assigns different subject to different faculty members according to their specialization. The head of the department discussed with every faculty member regarding the plan of teaching and also the HOD divides each syllabus of each subject into different modules according to the available working hour. That division is called lesson plan or the lecture

plan. Every teacher is bound to finish the syllabus within time. Each faculty members are told to form and maintain evaluation file for each subject. The file is containing following documents o Tutorial hours with the names of the students o Administrative, curricular and co-curricular activities o Study Objective o Lesson Plan o The topic and the class to be engaged o Teaching materials o Questions & results of the surprise test, etc. During the class; surprise visit is carried out by the head of the department to see whether the faculties are following the instructions or not. As per University during each semester there are two internal examinations is conducted. Beside that different innovative, participative activities are conducted which is related to the subject. Such as o Debate o Management Game o Roll Play o Case Study o Mini Survey o Mini Project o Quiz o Group Discussion. o Learning through Audio visual aids etc. Also different industry people are invited and use to take different classes, which is helpful for the students to enhance their practical knowledge. Special tutorial classes are being taken by each faculty for those students who are facing problem regarding any classes. Each department is adhering with the Mentorship programme. Each faculty is in commending of 15 students. They are responsible for academic and personal monitoring and counseling.

	The Governing body of the institute lays down policy parameters and procedures for the adequate maintenance of academic and support facilities such as classrooms, laboratory, Library and Sports complex. The laboratory, library and sports committees hold regular meetings with the members of the Internal Quality Assurance Cell and the minutes of the meeting are duly forwarded to the Director of the institute. The annual budget is chalked out in the finance committee meeting presided over by the Director of the institute. Internal expenses, with regard to academic and support functions, are determined internally in collaboration with the finance committee. In sync with this, the laboratory, library and sports committees formally propose their expenditure plans to the finance committee for approval. <u>https://www.himhaldia.edu.in</u>

5.4 – Alumni Engagement

5.4.1 – Whether the institution has registered Alumni Association?

Yes

The Institute has a registered Alumni Association. The mission of Alumni Relations is to inform, engage and inspire alumni to stay connected to their alma mater, support its vision and contribute to its success. The prima facie objective of the Alumni Association is to create an effective platform of interaction with and contribution to the alumni, teachers, and students and to the Institute as a whole.

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

In the last few years, different measures have been taken by the institute to maintain quality environment in order to ensure maximum productivity. Apart from the studies, the institute also focuses on basic hygiene and tried to keep the surroundings clean. It has to be made sure that the students are educated

about basic hygiene. This includes measures such as providing RO water purifier in each floor of the institute for the students so that they can get purified water. The reason behind this, most of the disease are water borne and because of this, it might content many microscopic particulates and unknowingly this water is used for drinking purpose. According to WHO, improving water and hygiene could prevent most of the disease which are directly associated with water. Water is an essential necessity with out which mankind can not survive so it is very important that its quality should be ensured. The HIM family has the notion that providing such facilities inside the college premises is not enough but implementation is more important and this objective could be achieved and by promoting this to the students with out the help of the stuff and faculty members of the institute. In place like Haldia, which is referred to as a rural belt, the chances of water borne diseases are higher as because most of the people are unaware of he fact that water can also be one of the medium of transforming disease. So it has to be made sure that students should also spread awareness in their neighborhood so that every one should be equipped to deal with the challenge of overcoming these disease if and when required. Beside this, another measure which has been taken by the institute is the initiative of providing free sanitary pads to all the girl students and making sure that they know the importance of using that. Since most of the students are from rural belt, not every one knows about the sanitary pads. So with the help of faculty members they needs to be educated enough so that they can themselves maintain the menstrual hygiene by using sanitary pads and other necessary supplies. The role of faculty members comes into picture while educating them about mensuration hygiene is making sure that students should feel to ask any question regarding this. Faculty members should try to diminish the communication barriers between the students and the teachers. Information regarding food habits and nutrition should also be given to the students. There is no doubt that educating girls brings greater benefits to the society but most of the time girl students do not come to the college due to not easy access of sanitary pads and clean bathrooms to change that make them stay at home. Keeping girls in school is important to their health and over all development. Various steps have been taken to promote the menstruation hygiene such as poster presentation by the students the regarding this topic, attending workshops, perform plays.

8. Future Plans of Actions for Next Academic Year

The Haldia Institute of Management is one of the premier management institutes of West Bengal. It was established in 2004 to impart management education and corporate training to business management students. Through the years, HIM has earnestly and perseveringly developed a distinctive brand of leadership by committing itself to provide value-based and quality education to present and future generations. In keeping with our pledge and commitment to providing quality business education, we are planning to introduce the following new courses from the next academic year. 1. B.Sc. in Data Science 2. M.Sc. in Data Science 3. B.Sc. in Agricultural Science 4. M.Sc. in Agricultural Science. We are also happy to announce that the intake capacity of the following courses is going to be increased from the next academic session. B. Optometry 30 to 60 and BBA hospital management 60 to 120. Apart from this, we are also planning to introduce more digitally-equipped smart classrooms to facilitate a more interactive learning environment. We, at HIM, strongly believe in a continual and sustainable personal development and improvement process. In sync with this idea, we plan to upgrade the teaching and research skills of our educators through our Faculty Development Programme. Since quality business education needs to place equal emphasis on both theory and practice, we, at HIM, are planning to run a greater number of workshops in the future to enable our students not only to keep abreast of the latest management practices but also to ensure a deeper understanding of
